

Blade Wall

Blade Wall is an architectural system for dividing open-plan spaces while maintaining a sense of light and connection. Its vertical slats create semi-transparent boundaries for walkways, reception areas, and breakout zones.

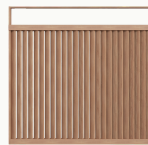

- Floor-to-ceiling architectural room divider
- 33mm thick vertical slats spaced 75mm apart
- Choice of straight or angled slat orientation
- Upper support beams are custom-made to suit ceiling height
- Available in a wide range of standard and premium finishes
- Please Note: This product is not suitable for all spaces and requires a site check prior to quotation.
- Made in Australia

Warranty 5 Years (Commercial Use)
